**Title PhD Project: Physiological reaction of B-cells on *Candida albicans* *in vivo* and *ex vivo***

### Main Research Interests

- B cell immunology
- *Candida albicans* colonization and invasion
- Protective role of antibodies in *Candida albicans* infection

### Methodological Experiences

- *Candida albicans* colonization and invasion in *in vivo* and *ex vivo* models
- ELISA for antibody detection
- FACS
- Histology

### Curriculum Vitae

- 05/2017 – present: PhD student within the research group “chair of Cell Biology” at Friedrich Schiller University Jena
- 10/2014 – 03/2017: master programme Pharmaceutical Biotechnology completed with a master’s degree (M.Sc.) at University of Applied Sciences Jena  
*master thesis: „Establishment and execution of the cleaning validation in the sector quality assurance“, EVER Pharma Jena GmbH*
- 10/2011 – 08/2014: bachelor programme Biotechnology completed with a bachelor’s degree (B.Eng.) at University of Applied Sciences Jena  
*topic bachelor thesis: „Toxic effects of metal ions (zinc, silver, aluminium, copper) on human dermal fibroblasts“, dermatological clinic Jena in the in-vitro research laboratory*
